

## Emergency Preparedness Fact-Finding Team (EPFFT)

A team has been gathered to begin addressing emergency preparation needs for our buildings, campus and people. This is step 1, a preliminary stage simply to accumulate useful information, then hand this job off to a task force as soon as possible. (Step 2: Then the task force will be given informed, specific direction and a specific completion date to accomplish its task.)

Purpose of this fact-finding team:

To gather information for creating an Emergency Preparedness Task Force Charge for preparation of our building, informing our safety procedures and training our population to respond appropriately to disasters and threats such as fire, extreme weather, or dangerous people.
